## Are you curious, like Maryse? Do you want to change the world through science?

I used to suffer from chronic pain that prevented me from enjoying life to the fullest.

Hypnosis helped me a lot. How does it work? Are the effects long term?

Take part in the *engage* program, which places you at the heart of a research project.

Your question is very interesting. Do you want to start a research project together?

Submit your question before September 15 and form a Duo with a researcher.
