

## Dr. Alain Piché

Full professor in the Department of Microbiology and Infectiology at the University of Sherbrooke. Clinician-researcher associated with the Research Center of CHUS and microbiology-infectiologist at CIUSSS-CHUS. He is the founder and medical director of the post-COVID clinic at CHUS, which has been operating since May 2020. More than 450 patients are actively monitored for post-COVID-19-related issues.

Dr. Piché is a member of the executive committee of the Quebec Biobank for COVID-19 (BQC-19). He has served as an advisory member to INESSS for the development of several clinical tools to assist in the management of post-COVID conditions, as well as a document on the organization of care and services for the prevention and management of post-COVID-19 conditions. Dr. Piché is a co-holder of several research grants from the Canadian Institutes of Health Research on long COVID and is part of the Canadian Long COVID Network, also supported by CIHR.
