

Interpretation Grid for Evaluation Ratings

Grant Programs – Funding and career advancement continuum

Fonds de recherche du Québec – Nature and Technologies Sector

Points awarded	Interpretation
90-100%	Meets and exceeds criteria expectations: all elements of the criteria assessed are clearly presented in the proposal. In addition, the candidate goes beyond the expectations of the criteria, which positively sets the application apart from the others presented to the evaluation committee.
80-89%	Meets the expectations associated with the criteria: all the elements of the criteria evaluated are clearly presented in the proposal. The application fully meets program expectations
70-79%	Meets the expectations associated with the criteria, but has some minor weaknesses: the elements of the criteria evaluated are presented in the proposal, but lack clarity <u>OR</u> are not fully addressed, which poses some problems with regard to understanding the proposed project <u>OR</u> its feasibility.
<69%	Does not meet the expectations associated with the criteria, due to significant weaknesses: the majority of the elements of the criteria evaluated lack clarity <u>AND</u> are not addressed in their entirety, which poses problems with regard to understanding the proposed project <u>AND</u> its feasibility.
